

ENDOVENOUS RADIOFREQUENCY SAPHENOUS VEIN ABLATION THE VNUS CLOSURE® PROCEDURE

AGENDA

8:00 am – 8:30 am	Registration and Continental Breakfast
8:30 am - 9:00 am	Introduction Anatomy & Pathophysiology of the Superficial Venous System Physical Evaluation Indications for Treatment Patient Demographics
9:00 am - 9:15 am	RF Saphenous Vein Ablation System and Technology Overview
9:15 am – 9:35 am	Closure Procedure Photo Sequence
9:35 am – 9:45 am	Tumescent Anesthesia
9:45am – 10:00am	Break
10:00am – 10:20am	RF Saphenous Vein Ablation: Clinical Data
10:20am – 10:40am	The Role of Duplex Ultrasound
11:00am – 12:15pm	GROUP 1 - Live or videotaped Case Observation GROUP 2 - Duplex Ultrasound Laboratory Session - Scanning for Venous Insufficiency - Scanning for Endovenous Radiofrequency Saphenous Vein Occlusion

AFTERNOON SESSIONS

12:30pm – 1:15pm	Lunch
1:15pm – 2:45 pm	GROUP 2 - Live or videotaped Case Observation GROUP 1 - Duplex Ultrasound Laboratory Session - Scanning for Venous Insufficiency - Scanning for Endovenous Radiofrequency Saphenous Vein Occlusion
2:45pm – 3:00pm	Practice Marketing Programs Clinical Education & Training
3:00pm – 3:30pm	Reimbursement
3:30pm – 3:45pm	Q&A, Group Discussion, Evaluation
