

Advanced Ultrasound Techniques: Venous Insufficiency Diagnosis and Treatment

7:30 - 8:00 a.m.	Registration & Continental Breakfast
8:00 - 8:10	Welcome & Course Review
8:10 - 8:45	Basic Anatomy and Pathophysiology of the Lower Extremity Venous System
8:45 - 9:15	Ultrasound in the evaluation of venous Insufficiency
9:15 - 9:30	Video: Venous Insufficiency Examination
9:30 - 9:45	Q & A
9:45 - 10:05	Break
10:05 - 10:45	Treatment Options for Saphenous Vein Incompetence
10:45 - 11:00	Literature Review: Comparison of Stripping & Ligation vs. Radiofrequency Closure
11:00 - 11:25	The Role of Ultrasound in Endovenous Radiofrequency Ablation
11:25 - 11:35	Video: Endovenous Radiofrequency Ablation Procedure
11:35 - 12:00 p.m.	Adjunctive Procedures for Superficial Venous Disease
12:00 - 12:30	Q & A
12:30 - 1:30	Lunch
1:30 - 3:30	Hands-on Scanning Session
	Duplex Examination for Venous Insufficiency and Patient Selection for RF Ablation
3:30 - 3:50	Final Q & A
3:50 - 4:00	Evaluations & Certificates
